

RESOLUTION NO. 1553

WHEREAS, the City of Albany provides sanitary sewers for the peace, health, safety and welfare of its citizens, and

WHEREAS, house or side laterals are normally provided at the time of construction of the main line sewer, said house lateral normally extending from the main line sewer to the property line of the benefitted property, said house laterals being installed to eliminate the need to dig up street improvements at future times, and

WHEREAS, said house laterals are provided for the service of the abutting, benefitted properties and for no other reason,

NOW, THEREFORE, BE IT RESOLVED, the City of Albany will no longer do maintenance work, or pay for maintenance work done on any house lateral unless it can be determined by the Public Works Director that conditions causing the need for maintenance are due to a definite problem in the main sewer line. A condition attached to the determination of whether or not the fault lies in the main line or not shall be inspection by Public Works personnel prior to any work being done on the house lateral.

DATED this 14th day of November, 1973.

Walter D. Davis
Mayor

ATTEST: Ernest W. Isham
/s/ Ernest W. Isham
City Recorder
