

RESOLUTION NO. 2320

A RESOLUTION FOR THE ADOPTION OF ENGINEERING REPORTS, AUTHORIZATION TO SECURE EASEMENTS, TO OBTAIN BIDS, TO INCREASE APPROPRIATIONS, AND TO ISSUE WARRANTS FOR THE CONSTRUCTION OF SS-82-1, DRAPERVILLE SANITARY SEWER.

BE IT RESOLVED that the engineering reports of the Public Works Director filed with the City Recorder on the 24th day of March, 1982, concerning SS-82-1, Draperville Sanitary Sewer, be and the same are hereby adopted.

BE IT FURTHER RESOLVED that the Council authorize the Mayor and City Recorder to sign agreements on behalf of the City of Albany for the purpose of obtaining easements to construct the said improvements, direct the City Manager to obtain bids for the construction of said projects as required by law, and authorize the Mayor and City Recorder to make, issue, and negotiate General Obligation Improvement Warrants for the performance of said improvements, bearing interest not to exceed 12% per annum, and constituting general obligations of the City of Albany. The terms of conditions of such warrants shall be as provided by ORS 287.502 to 287.510.

BE IT FURTHER RESOLVED that funds budgeted within the Improvement Fund be appropriated as follows:

<u>RESOURCE</u>	<u>FROM</u>	<u>TO</u>
<u>Improvement Fund</u> 26-985-86001		\$100,000.00
<u>REQUIREMENT</u>		
<u>Improvement Fund</u> 26-985-89061		\$100,000.00

DATED this 14th day of April, 1982.

Ronald W. Brudney
Mayor

INTERDEPARTMENTAL MEMORANDUM
Public Works Department
Wastewater/Drainage Division

TO: Albany City Council
VIA: Bill Barrons, City Manager
FROM: Bob Jackson, Public Works Director
DATE: April 8, 1982 for April 14, 1982 City Council Meeting
SUBJECT: Draperville Assessment Policy

The current assessment policy for sanitary sewer improvement projects provides that a property owner must pay his assessment in one lump sum or in twenty semi-annual payments in accordance with the Bancroft Bonding Act. If an assessed property is divided such that increased use of the sewer results, the new benefitting property owner(s) is charged an in-lieu-of-assessment charge to cover his share of the public improvement. This in-lieu-of-assessment policy was established by Ordinance No. 4169 on August 9, 1978.

Because the Draperville-Century Drive area consists of generally large lots and complex configurations, the potential for extensive development is great. Thus, there is a need for a special assessment policy for this project. This policy will be based on the straight-line depreciated assessment cost versus the in-lieu-of-assessment charge. A property owner that connects a new, unassessed unit to the sewer system will pay either the depreciated assessment cost or the in-lieu-of-assessment charge, whichever is greater.

As properties develop during the ten year Bancroft Bonding period, the monies the City receives from these new assessments will be divided equally among the previously assessed units. Property owners will either be given a credit on their semi-annual

8

Draperville Assessment Policy
page two

bill or sent a refund if their assessment is paid in full. The City will annually, in January, review the number of additional units in the Draperville-Century Drive sewer service area, and if ten (10) or more units have been added, then property owners will be credited. These credits or refunds will run with the land. After the ten year period, all subsequent unit development will pay the in-lieu-of-assessment charge.

For example, consider a lot that has 200 feet fronting an existing sewer line. Assume the property owner bancrofted his \$3,123 assessment for the project. In year number 3, the property owner sells half of his lot (100 front feet) and the new owner erects a single-family house. What would the new owner's assessment be?

In year number 3, the depreciated assessment cost would \$2,342.25 (July 1, 1985). If the in-lieu-of-assessment was \$17.00/front foot, the charge would be \$1,700.00. New property owner would pay \$2,342.25.

If for the above example, the lot was sole in year number 6, the depreciated assessment cost would be \$1,405.35. Assuming the in-lieu-of-assessment went up to \$21.50/front foot, the charge would be \$2,150.00. The new property owner would pay \$2,150.00.

Reimbursements to the current property owners resulting from new assessments would only be made up to ten years (the life of the Bancroft Bond). After that time, all in-lieu-of-assessment fees would be held in a reserve account and applied to future development or maintenance expenses.

Respectfully submitted,

Mark Yeager
Wastewater/Drainage Division Manager

Interdepartmental Memorandum
Public Works Department
Wastewater/Drainage Division

TO: Albany City Council
VIA: Bill Barrons, City Manager
FROM: Bob Jackson, Public Works Director
DATE: March 16, 1982, for March 24 Council Meeting
SUBJECT: Engineer's Report for Albany-Draperville Sewerage Facilities

Description of Project

On December 1, 1978, the Administrator of the Oregon State Health Division, after following all due processes required by ORS 222.850-222.915, issued an order finding that a danger to public health exists within the unincorporated Draperville-Century Drive area. In conformance with the state law, the order required the City of Albany to annex the area contiguous to the city and alleviate the health hazard.

On February 3, 1982, the Department of State accepted the City of Albany's ordinance annexing the Draperville-Century Drive area. That total area consists of 288 parcels in an area of approximately 217 acres.

After a long planning and review process, the selected alternative for alleviation of the health hazard has reached final design. That design is currently being reviewed by the various regulatory agencies and may be subject to minor changes. However, the final plan consists of 21,809 lineal feet of gravity sewer pipe ranging in size from 8-inch to 15-inch, 4,670 lineal feet of 12-inch pressure sewer pipe, and 4,194 lineal feet of 4-inch pressure sewer pipe. Two pump stations, one interim and one permanent, are also included in the design.

It will be necessary to obtain 12 permanent and/or construction easements and purchase one small parcel for locating the Century Drive Pump Station.

Albany City Council
Page 3
March 15, 1982

Method of Assessment

It is proposed that the property owner cost of this project be assessed as follows:

Property owners will pay one assessment for each unit on their property that will use the sewer. A unit shall be defined as any building, structure, or facility (i.e., single-family home, apartment, mobile home, store) that requires sewer service.

Property owners with buildable lots that do not have any units that will use the sewer at this time will be provided service and will pay one assessment.

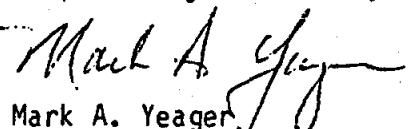

It is anticipated that the bond sold to pay for this project will be paid off over a period of ten years. Therefore, each property owner that constructs or otherwise locates new units on a lot during this 10-year period will be required to pay one assessment per unit. This assessment will be based on the amount left to pay on the bond divided by the new total number of units served. This payment will be divided by the number of units originally assessed and applied as a credit to the amount remaining on each original assessment. The owner of a buildable lot that has paid an assessment but never connected to the sewer will be allowed to connect one unit without paying another assessment. Additional units will be assessed as above.

It is the opinion of the staff that this method of assessment is the most equitable for this project.

Assessment Data
