WHEREAS, the Council of the City of Albany has duly adopted Ordinance No. 5157 declaring their intent to comply with the provisions of ORS 223.207 through 223.208, and 223.297 through 223.314, an ordinance regarding system development charges; and

WHEREAS, a methodology for the calculation of system development charges for the transportation system in North Albany has been developed as specifically described in Resolution No. 3423;

NOW, THEREFORE, BE IT RESOLVED that a transportation system development charge for North Albany hereby be established as described herein;

BE IT FURTHER RESOLVED that an appeal fee is hereby established as described herein;

BE IT FURTHER RESOLVED that the Improvement Fee System Development Charge herein established become effective November 1, 1994.

BASE FEE ESTABLISHED

The base unit for the transportation system development charge (SDC) will be trip ends as defined in the "Trip Generation" Manual by the Institute of Traffic Engineers. The average weekday trip generation rates for representative land uses are as shown in Attachment 'A' included herein. The base fee for a single trip end is \$132. The entire base fee is an Improvement Fee as defined by the implementing methodology.

RESIDENTIAL AND MULTI-FAMILY DEVELOPMENT:

Residential and multi-family development SDC's are computed by multiplying the base SDC fee by the average weekday trips per dwelling unit. The following table summarizes the calculations for a number of residential land uses:

Land Use Description	Trip Rate per Dwelling Unit	SDC per Trip	Total SDC per Dwelling Unit
Single Family Detached Housing	9.55	\$132	\$1,260
Apartment/Duplex	6.47	\$132	\$854
Residential Condo/Town house	5.86	\$132	\$773
Mobile Home Park	4.81	\$132	\$635
Congregate Care Facility	2.15	\$132	\$284

For residential land uses not applicable to the above-referenced categories, the City Engineer will determine an appropriate trip rate based on information in the ITE Trip Generation manual, and may consider information submitted by the applicant.

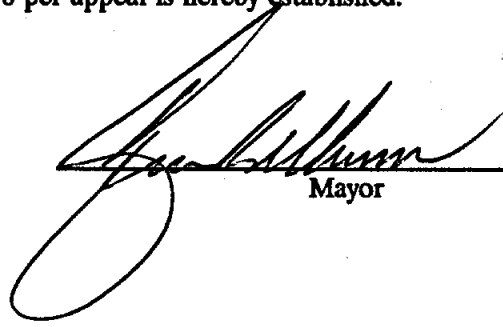

OTHER DEVELOPMENT:

All other development (institutional, business and commercial, office, and industrial) will be calculated by multiplying the base SDC fee per average weekday trip (\$132) by the associated average trip rate for the given land use specified in Attachment 'A.' For land uses not applicable to categories listed in Attachment 'A,' the City Engineer will determine an appropriate trip rate based on information in the ITE Trip Generation manual, and may consider information submitted by the applicant.

APPEAL FEE:

Pursuant to Section 15.16.100(4), an appeal fee of \$50 per appeal is hereby established.

Dated this 26th day of October 1994.
