How To Get Along With People

Keep skid chains on your tongue; always say less than you think; cultivate a low, persuasive voice. Make promises sparingly and keep them faithfully, no matter what it costs you. Praise good work done, regardless of who did it. If criticism is merited, criticize helpfully, never spitefully. Preserve an open mind on all debatable questions. Discuss but don't argue. It is a mark of superior minds to disagree and yet be friendly.
