The Linn County Fair, which is held each September at the Linn County Fairgrounds, is always fun for the entire family. Pictured above are a couple of things a fairgoer might have come across during his visit in 1978.

VITAL STATISTICS AND INFORMATION

“Hub of the Willamette Valley”

Albany, the seat of fertile and lovely Linn County, is the “Hub of the Willamette Valley.” It has excellent transportation facilities, beautiful homes, up-to-date schools and outstanding civic institutions. Easy-to-reach Albany is at the junction of U.S. Highways 99, 20 and Interstate 5, twenty-four miles south of Salem, and sixty-nine miles south of Portland.

Agriculture is highly diversified and the climate relatively free of extremes. The land, a combination of green valleys and timbered hills, produces bumper harvests of fruits, vegetables, filberts, grains and other crops. Irrigated pastures provide lush feed for herds of dairy and beef cattle. Poultry and poultry products, including turkeys, are money-makers too. Albany is the home of recognized leaders in the freeze dry industry. Smoked meats and frozen foods are produced locally, also.

Linn County is also the home of a vast timber empire, with sawmills, plywood mills, a particle-board plant, a resin plant, and a furniture factory busy converting tall trees to finished products. Albany is also the regional headquarters of the U.S. Bureau of Mines. Numerous other industries indicate a progressive outlook.

Outdoor recreation is at its finest here. A large portion of the county is being set aside to provide an unspoiled wilderness area for escape from crowded, noisy cities. Beautiful Clear Lake is nearby; mountain scenery, deep forests, lava beds, Alpine lakes, sparkling streams and excellent hunting and fishing are all at hand. The popular Hoodoo Ski Bowl is an easy drive from Albany and the blue Pacific with its scenic beaches is not far. Albany and Linn County offer a way of life that is truly happy and contented.

ALTITUDE - 212 feet above sea level.

CHURCHES - Albany has 50 churches representing 30 denominations.

CITY RECREATION - Albany's City Recreation is among the finest in the entire state. The Albany Parks and Recreation Department sponsors a variety of year-round youth and adult recreation classes and activities. Among the programs available are athletic leagues for men and women of all skill levels and a cultural program for all ages which includes everything from the fine arts to instructional classes in applied arts. Other program areas include a Y-City Girls (4th thru 9th grade) Sports Club; Kiddie Krafts (pre-school) classes for children 3, 4 and 5 years of age; outdoor education; community gardening; supervised playgrounds and swimming instruction June thru August. The Albany Senior Citizen Center program boasts a brand new facility staffed with a full-time coordinator. Daily activities, recreational classes and special events and trips are scheduled year round. The Center also provides information and referral services and monthly blood pressure clinics.

ALBANY BOYS CLUB - There is a well-equipped Boys Club for all boys between the ages of 7 - 19. The Boys Club has one of the finest equipped game rooms that can be found. In the library, a boy can find a place to read,

watch TV, and play games. A boy can also find activities in woodworking, and lapidary work, and many other craft activities. If a boy is interested in athletics, the Boys Club provides programs in baseball, football, basketball, track and field, wrestling, boxing and soccer. The Albany Boys Club is a place where a boy can come and develop under qualified adult supervision.

YMCA - The mid-Willamette Family YMCA is oriented toward providing activities for men and women, boys and girls. Its facilities include an enclosed swimming pool, shower, drying and dressing rooms in modern decor, a sauna for both men and women, a large activity lobby with ping pong, pool, snack machines, a club room, lawn and play space, a gymnasium which houses two four-wall handball courts, volleyball, basketball, badminton and exercise mats. The swimming program includes: recreation swims, instruction, life-saving, competitive swimming and diving. Aqua-fitness for women and pre-school and Parent-Tot classes. Slimnastics for women, gym classes for boys and girls, and handball and raquetball classes for women are offered in the gymnasium. Camping is available at Camp Silver Creek. The YMCA also sponsors the following community programs: Y Big Brothers and Sisters, Youth in Government, Good Times which is an after school child care program; Y Indian Guide Tribes; and a girls' sports program in cooperation with the city of Albany.

VITAL STATISTICS (Continued)

POLICE DEPARTMENT - Albany has 9 modern vehicles with the latest in radio communications equipment, a 30 man department with an 8 man reserve patrol, 2 crime prevention officers, 1 animal control officer, 1 parking enforcement officer and 6 clerks.

FIRE DEPARTMENT - There are 9 fire vehicles, 4 ambulances and 3 official vehicles; 1 main station, 1 sub-station; an intricate alarm system; 42 regular firemen including a fire chief, marshal and inspector; 25 volunteer firemen.

SEWER SYSTEM - Albany has an activated sludge treatment system designed for flow of 8.7 mgd with maximum capacity of 20.2 mgd; 38,700 lbs. per day BOD and 20,500 lbs. per day suspended solids.

PUBLIC WORKS DEPARTMENT - The Public Works Department designs, constructs and maintains streets, airport, sewers, city buildings, an excellent street lighting system, centralized motor pool and modern shops. It has 52 employees, 34 radio-equipped vehicles and 20 regular vehicles.

CLIMATE - Mean annual temperature is 53.3 degrees. Average rainfall is 39.71 inches. Ninety percent of the annual rainfall occurs between October 1 and June 1. Temperature averages 56 days annually below 32 degrees. Average number of days above 90 degrees is 11. The highest temperature on record is 104 degrees in 1926. There is little snow. The region is free from tornadoes, earthquakes and electrical storms. The prevailing wind in the winter is from the south and in the summer from the north.

CULTURAL - During the winter, Albany residents and visitors enjoy the Oregon Artists Series, Albany Civic Theatre productions, hobby groups and high school extension courses in night classes of various subjects and crafts. The purpose of the Creative Arts Guild of Albany is to bring culture alive in the mid-Willamette Valley by developing and encouraging the creative arts in the area. Albany's annual Spring Arts Festival is held in late April or early May to celebrate the coming of spring through involvement in the fine arts. Numerous buildings are converted into informal art galleries, and entertainment is provided in these. In the evening, dramatic and musical events are held throughout the city.

EDUCATION - Albany has 2 high schools (3 grades), 3 junior high schools, 8 elementary schools and 2 parochial elementary schools. It is the home of Linn-Benton Community College. There are 3 nurseries for ages 2 - 6, available 5 days a week, and 14 kindergartens (9 general, 5 parochial), available 5 days a week. On Albany's fringe: 17 elementary schools and 13 of Oregon's major universities and community colleges are within an hour's drive.

FINANCIAL INSTITUTIONS - Eight banks and 5 savings and loan associations are located in Albany. First National Bank of Oregon (Albany & Waverly Bran-

ches), Greater Pacific Bank, U.S. National Bank of Oregon (Albany Community and Santiam Branches), Citizens Valley Bank (Albany, East Albany & South Albany Branches), State Savings and Loan (Downtown and Santiam Branches), Home Federal Savings and Loan, Equitable Savings and Loan, Cascade Federal Savings and Loan, and Fred Meyer Savings and Loan.

GOVERNMENT - Council-Manager (Mayor, 6 Councilmen and City Manager).

HISTORY - Albany was founded by Walter and Thomas Monteith in 1848 and named for their former home, Albany, New York. The first settler arrived in 1846; the first store was established in 1849; the first school opened in 1851; the first steamboat arrived in 1852 and the Post Office was established in 1852.

HOUSING AND LAND - As in most growing communities, rentals at times have been a problem. However, the situation in Albany has improved, and the price range on 2 - 3 bedroom unfurnished rentals is from \$115 to \$300. In the home building field, Albany is experiencing its greatest growth and subdivision construction with minimum FHA financing available. Excellent home sites in and out of the city are available.

INDUSTRY - Industrial diversification has been the key factor in the rapid growth and development of Albany. Recent payroll additions have come from various industries. Several plants manufacture wood products and utilize wood waste. Some of Albany's other industries are in production of zirconium, titanium and related exotic metals. Albany's location of the U.S. Bureau of Mines experimental station has undoubtedly attracted other industry to the area. Agriculture, long a dominant factor in the economy continues to grow through Albany's several food processing plants. This also holds true of the seed processing business. Another link in the processing chain is the meat manufacturing facilities. More and more light industry is settling in the area to add even more dollars to the well-rounded and growing Albany economy. With abundant water, low cost power and economical well-situated industrial sites, the Albany future is decidedly bright. This well can be the "BRIGHTEST SPOT IN OREGON'S FUTURE."

LIBRARY - The Albany Public Library has 51,000 volumes available for loan. Current circulation is about 14,000 per month. The staff is composed of a head librarian, 10 full-time and 8 part-time employees and 2 volunteers. In addition to references and general reading books, magazines, records, 8 mm films, cassettes, newspapers, art prints for adults and children and paperback books are available for loan. The library also has a complete children's services department which offers a variety of programs, story hours for all ages and personal reference service. Dial-a-Story is offered, also. A new library was dedicated in April 1974 at 1390 S.E. Waverly. There is also a downtown branch currently in operation.

VITAL STATISTICS (Continued)

LOCATION - Albany is located on the freeway, Interstate 5, U.S. 99 and on U.S. 20. It is 69 miles south of Portland, 234 miles north of the California border, 65 miles from the Pacific Ocean, 44 miles from the University of Oregon at Eugene, 11 miles from Oregon State University at Corvallis, 24 miles from the State Capital (Salem), and 75 miles from the summit of the Cascade Mountain range.

OUTDOOR RECREATION - Albany's location is ideal for all outdoor recreation as well as spectator sports. All the beauty, sandy beaches, fishing and glamour of the blue Pacific Ocean is just 90 minutes away on fine paved highways. This is truly a mecca for rest, relaxation, vacation or just plain fun. A drive to the East will put you in the Cascade country for wonderful winter skiing or fall hunting of deer, elk and game birds. During fishing season, it is out of this world with lakes and streams full of fighting fish. This is great country in the summer for outdoor camping and vacationing. Located on the Willamette River, Albany offers opportunity for boating and water skiing. Collegiate football and basketball is available featuring the University of Oregon, Oregon State University and Willamette University right in the neighborhood. Linn-Benton Community College also has inter-collegiate basketball games. Albany has one 18 and one 9 hole public golf course; one private 18 hole course; 1 golf driving range; 2 bowling allies; 2 theatres; 2 drive-in theatres; 1 roller skating rink; and 1 civic theatre.

ALBANY GENERAL HOSPITAL

HISTORY: Albany General Hospital is a not-for-profit, general acute care, community hospital of 106 beds, located on 2.44 acres at 1046 West Sixth Street, Albany, Oregon. The hospital has been in continuous operation since 1924 when the first hospital building was constructed on this site. In 1957 a wing was built at the corner of Seventh and Elm and known today as the "57 Building." 1967 marked the first phase of construction on the present hospital facility. The second phase was completed in 1973. The 57 building has not been used as a hospital facility since and the 1924 portion has been torn down.

PRESENT FACILITY: The present hospital building is a four story facility of approximately 113,000 square feet. The basement floor contains the departments of surgery, recovery, housekeeping, central processing, pharmacy, purchasing, maintenance, accounting, and data processing. The first floor contains the business offices, administrative offices, and major ancillary services. The second, third, and fourth floors contain the nursing and patient care units.

CORPORATION AND BOARD: The hospital is governed by a board of directors composed of prominent citizens of the area elected by the membership of the hospital corporation. The President of the hospital is the only salaried member of the board. The corporation is composed of donors who have contributed \$100 or more to the hospital. The number of members now exceeds 500.

STAFF AND EMPLOYEES: There are 74 active and courtesy members of the medical staff and 124 registered nurses. The total number of full time and part time hospital employees (including nurses) is 412 (306 full time equivalents). The hospital has agreements with Oregon Nurses Association and Service Employees Union Local No. 49. The auxiliary membership of 400 volunteers provides 13 in-hospital services and six community services (including breast examination and medic alert).

ACCREDITATION, APPROVALS, AND MEMBERSHIPS: The hospital has been accredited by the Joint Commission on Accreditation of Hospitals through October, 1979. It is approved and licensed by the Oregon Department of Human Resources and approved for participation in the Medicare and Medicaid (welfare) programs. It is a member of Blue Cross, American Hospital Association, The Association of Western Hospitals, and the Oregon Association of Hospitals.

BUDGET: The hospital's 1978-79 budget is based upon a fiscal year of October-September with projections of 70.5% occupancy, 5,746 admissions, 4.75 average length of stay, 27,294 patient days, 23,390 emergency room visits, 11,569 referral visits (including all outpatient services other than outpatient surgery), \$4,100,000 for salaries, and \$4,000,000 for supplies, services, and other expenses for a total annual budget of \$8,100,000.

Julie Owens is a nurse with a special job. She is the hospital's patient care coordinator and she spends her time taking care of special patient needs. She provides patient education, emotional support and information on resources for care after the patient has been discharged from the hospital.

The Art of GETTING ALONG

Sooner or later, a man, if he is wise, discovers that life is a mixture of good days and bad, victory and defeat, give and take. He learns that it doesn't pay to be a sensitive soul; that he should let some things go over his head like water off a duck's back. He learns that he who loses his temper usually loses out. He learns all men have burnt toast for breakfast now and then, and that he shouldn't take the other fellow's grouch too seriously. He learns that carrying a chip on his shoulder is the easiest way to get into a fight. He learns that the quickest way to become unpopular is to carry tales and gossip about others. He learns that buck-passing always turns out to be a boomerang, and that it never pays.

He comes to realize that the business could run along perfectly well without him. He learns that it doesn't matter so much who gets the credit so long as the business shows a profit. He learns that even the janitor is human and that it doesn't do any harm to smile and say "Good Morning", even if it is raining. He learns that most of the other fellows are as ambitious as he is, that they have brains that are as good or better, and that hard work and not cleverness is the secret of success. He learns to sympathize with the youngster coming into the business, because he remembers how bewildered he was when he first started. He learns not to worry when he loses an order, because experience has shown that if he always gives his best, his average will break pretty well. He learns that no man ever got to first base alone, and that it is only through cooperative effort that we move on to better things. He learns that bosses are no monsters, trying to get the last ounce of work out of him for the least amount of pay, but that they are usually fine men who have succeeded through hard work and who want to do the right thing. He learns that folks are not any harder to get along with in one place than another, and that the "getting along" depends about ninety-eight per cent on his own behavior.

Safety In The Home

As important as it is for you and your family to have proper medical attention and a diet high in nutritional value, it is just as important to know what to do in case of an emergency. Hundreds of people are killed each year in deaths related to accidental poisoning or overdoses. Many of these lives could be saved if more people were aware of the emergency measures to take in such cases.

Hundreds more die as a result of injuries sustained in accidents. Many of these deaths could also be avoided with simple knowledge of first-aid procedures.

This section of the City Directory tells you what to do in an emergency. Make sure you keep it in a handy place. Read the First Aid instructions frequently and carefully. In fact, have every member of your family read them. REMEMBER, ACCIDENTS CAN AND DO HAPPEN. MAKE SURE YOU KNOW WHAT TO DO.

POISONS, OVERDOSES AND ANTIDOTES

Every year more than 60,000 children eat or drink something poisonous, or take accidental overdoses. Hundreds of deaths and thousands of children with permanent damage of one kind or another is the result. Speed is the most important factor in saving lives and preventing permanent damage in cases of poisoning or overdosing.

1. Call a physician immediately.
2. If a physician isn't available, call a hospital, the police department or poison control center if there is one in your community.

3. Keep the victim warm.
4. If the victim is unconscious, do not give liquids.
5. If the victim is unconscious or having convulsions, do not induce vomiting.
6. Save the bottle or container from which the poison came.
7. Keep the following list of poisons and antidotes in a handy place, and apply the suggested antidotes.

Acids	Give a large quantity of water, 2 tablespoons of milk of magnesia or similar antacid; do not induce vomiting.
After-Shave Lotion	Give a glass of milk, induce vomiting (as with Camphor) and give 2 teaspoons of bicarbonate of soda in a glass of water.
Camphor	Induce vomiting with finger in throat, or 1 tablespoon of syrup of ipecac, followed by a glass of water, or a teaspoonful of mustard in half a glass of water.
Carbon Monoxide	Carry victim into fresh air, lie victim down and give artificial respiration, if necessary.
Chlorine Bleach	Give one or two glasses of milk.
Cologne, Perfume	Use same remedy as for After-Shave Lotion.
Detergents	Use same remedy as for Chlorine Bleach.
Disinfectant With Chlorine	Use same remedy as for Chlorine Bleach.
Disinfectant With Carbolic Acid	Induce vomiting (as with Camphor). Then give 4 tablespoons of castor oil and a glass of milk or the white of 2 raw eggs.
Food Poisoning	Induce vomiting (as with Camphor). Then give 2 tablespoons of epsom salt in 2 glasses of water, except in cases with severe diarrhea.

POISONS, OVERDOSES AND ANTIDOTES

Furniture Polish	Give water or milk, then 4 tablespoons of vegetable oil. Do not induce vomiting.
Gasoline, Kerosene	Use same remedy as for Furniture Polish.
Household Ammonia	Give 2 tablespoons of vinegar in 2 glasses of water. Give the white of 2 raw eggs or 2 ounces of vegetable oil. Do not induce vomiting.
Insect and Rat Poisons With Arsenic	Give glass of milk or 1 tablespoonful of activated charcoal mixed with a little water. Induce vomiting (as with Camphor) but not with syrup of ipecac if charcoal was given.
With Sodium Flouride	Give glass of milk or lime water. Induce vomiting (as with Camphor).

“FOOD FOR THOUGHT”

So the squirrel said, “I don’t like the nuts on this tree,” and he moved on to another tree. That squirrel was a darned sight smarter than some people.

We figure that anyone who accepts a job and then spends his 8 hours a day complaining about the boss, or the situation, is really stupid. If he doesn’t like it, why the hell doesn’t he get out and find a tree he likes?

The Constitution says we’re guaranteed the right to PURSUE life, liberty and happiness. Doesn’t say a word about guaranteeing the cookie jar will be filled every morning. Filling it is up to the individual ... same as the squirrel.

Now, don’t get us wrong. We’re not furnishing every employer with a white hat. But he is providing the nuts we do get, and no one is standing there with a sword forcing us to accept this particular brand of nuts.

In short, we’re an advocate of the old principle that says “If you work for a man, work for him,” do all you can to make him succeed, for your future is tied to his success.

It’s a pretty true statement, because if you goof him up, you’ll kill the whole tree.

Then it’ll be a nutless winter for sure!

ALBANY

"Where an active, exciting past means a bright, ambitious future."

A model of agricultural and industrial diversification. A center for the grass seed industry, farming and food processing, cattle, sheep and dairy production.

Where wood products get the full treatment into lumber, particleboard, plywood, furniture, paper and other wood products.

A manufacturing center for sawmill machinery, mobile homes, fiberglass boats and fabrication of metal components for government and industry.

Site of Bureau of Mines R & D Laboratories. Northwest home of refractory metals production - zirconium, hafnium, titanium, columbium, tantalum, and vanadium. Precision casting of stainless steel golf club heads and production of titanium golf shafts.

Main line rail and road transport service. Low cost power and water . . . excellent municipal service . . . attractive industrial sites.

A progressive community with modern schools, attractive residential areas, churches of all faiths and aggressive retail business.

**ARE YOU
GETTING YOURS?**

This is the time of the turtle. This little animal has survived the primordial world for 200 million years and may well plod on long after whales and human beings have vanished. The turtle has been a paragon of adaptability, having had a successful response for every new predator or environmental gangster. It's the perfect animal emblem for the survival oriented conservatism now creeping across the land. Slow starters and trusty haulers are in demand. Remember what happened to the hare?

Your City Directory can help you and your company become an evolutionary champ like the turtle. Using properly verified information about carefully selected clients, you can achieve a higher closing, interview ratio, at a minimal amount of time and travelling expense. A current City Directory should be the backbone of every business. Don't make a move without it!

Willamette Industries, Inc.

Albany Mill Division

Albany, Oregon

A Proud Member Of The Albany Community

The Western Kraft plant is located on a 130 acre tract about 3½ miles north of Albany. This area was selected primarily because of its central location in relation to the supply of wood chips from the surrounding timber area.

Western Kraft is a growing company keeping pace with the community and economic development of Oregon. The quality products are a direct reflection of the outstanding members of this community who operate our modern facilities.

tell you is that
men who
don't smoke
live about
6 years longer
than men who
do smoke.*

If you want someone
to help you stop smoking
cigarettes, contact your
American Cancer Society.

GOOD BUSINESS

By EDGAR A. GUEST

If I possessed a shop or store
I'd drive the grouches off my floor.

I'd never let some gloomy guy
Offend the folks who come to buy
I'd never keep a boy or clerk
With mental toothache at his work.
Nor let a man who draws my pay
Drive customers of mine away.

I'd treat the man who takes my time
And spends a nickel or a dime
With courtesy, and make him feel
That I was pleased to close the deal,
Because tomorrow, who can tell,
He may want stuff I have to sell;
And in that case then glad he'll be
To spend his dollars all with me.

The reason people pass one door
To patronize another store, is
Not because the busier place
Has better silks or gloves or lace
Or cheaper prices, but it lies
In pleasant words and smiling eyes;
The only difference, I believe is
In the treatment folks receive.

It is good business to be fair
To keep a bright and cheerful air
About the place, and not to show
Your customers how much you know.

Whatever any patron did
I'd try to keep my temper hid, and
Never let him spread along
The word that I had done him wrong.

HOMEOWNERS FIRST AID

MOUTH TO MOUTH BREATHING

Call
a doctor
first!

- 1. START IMMEDIATELY!** Call a doctor! Two exceptions. If gas or smoke are present, remove victim to fresh air; if electric shock is cause, make sure body is not in contact before touching.
- 2. REMOVE FOREIGN MATTER** from mouth.
- 3. TILT HEAD BACK** with victim on back, neck extended, grasp lower jaw, lift forcefully upward into jutting-out position as shown.
- 4. IF AIR PASSAGE IS NOT CLEARED**, strike sharp blows between shoulder blades.

- 5. OPEN YOUR MOUTH WIDE**, cover victims mouth completely, airtight, close victim's nose by pinching. With children-cover both mouth & nose with your mouth.
- 6. BLOW AIR INTO VICTIM'S LUNGS** until chest rises (less forcefully for children). Remove mouth, allow exhale. If chest does not rise, check for correct position and removal of foreign matter. Tongue may be blocking air passage.
- 7. REPEAT** (20 times a minute for adults, 12 a minute for children) until victim revives. Don't stop!

Call
a doctor
first!

HEART MASSAGE

In a heart emergency, when the victim shows evidence of heart stoppage, artificial respiration must be started at the earliest possible moment. An effective method for first aid treatment is the closed-chest heart massage. Only equipment needed is the hands. Turn victim on his back, resting against some solid support, head tilted far back, jaw jutting out. Kneel at left side of body and place heel of one hand on lower portion of breast bone, other hand on top as shown at left. At rate of approximately 60 compressions per minute (pulse rate) press down with both hands until breast bone is depressed from one to two inches. Lift hands between each stroke so that breast bone returns to normal position.

POISONED WOUNDS

POISONED WOUNDS - From bite of animal - Treat immediately. Wash under running water to remove animal saliva. Have patient lie down. Apply bandage above wound to prevent spread of poison. With sterilized tip of knife or razor cut into the wound, a depth of 1/8 to 1/4 inch over each fang mark, and let poison out. Apply suction, or if necessary suck wound out by mouth, provided there are no open sores or wounds in mouth, remove as much poison as possible. Be careful not to swallow. Continue suction about a half hour. Cauterize with nitrate acid, chloride of zinc or nitrate of silver, or by applying white hot iron. Give patient stimulants and rush to doctor.

BLEEDING CAN ALMOST ALWAYS BE CONTROLLED BY PRESSING PAD OF CLOTH OR GAUZE OVER THE WOUND.

PRESSURE POINTS

Severe bleeding must be stopped at once. If you cannot do the following use finger pressure until help is available.

- 1. Get a thick pad of cloth**, sanitary napkin, gauze or clothing.
- 2. Press pad directly over wound.** When bleeding is controlled, add more layers and bandage.

FOR ARTERIAL (SPURTING) FROM ARM OR LEG DO THIS

- 1. Raise wound** above rest of victim's body and follow steps 1 and 2.
- 2. Press artery against bone** (see chart for pressure points) between wound and heart.
- 3. Do not use tourniquet** unless you are a trained first aider!

FIRST AID KIT

ASSEMBLE THESE

FIRST AID SUPPLIES NOW BEFORE YOU NEED THEM:

Sterile gauze compresses and pads. Sealed rolled gauze bandages. Adhesive strip bandages — tape. Sterile absorbent cotton. Iodine (2% solution or consult pharmacist). Petroleum jelly. Bottle of calamine lotion. Aromatic spirits of ammonia. Milk of magnesia. Dry mustard. Baking soda. Universal antidote for poisons (buy from druggist). Scissors, tweezers. Medicine dropper. Fever thermometer. Hot water bottle. Ice bag.
In all cases of serious shock or injury, send for a doctor or ambulance at once. In the meantime, apply first aid promptly, but not hastily.

BLEEDING WOUNDS - Bleeding in spurts indicates severing of an artery. Steady flow indicates a vein has been cut. Bleeding from an artery should be stopped by applying pressure of the thumb, a compress or cloth pad over the artery at a point between the bleeding wound and the heart. In bleeding from a vein (steady flow), pressure should be applied on the side away from the heart. Where bleeding is not severe, a compress over the open wound should be sufficient. If bleeding is very severe, tourniquet may be made by tying handkerchief, cloth, belt, strap, or necktie around the part over compress and using small stick, pencil, or similar article with which to twist and tighten. Do not twist too hard, just enough to stop bleeding. Loosen every twenty minutes to let a little blood escape. Keep the part elevated.

SHOCK

SHOCK - Lay patient flat on back with head low, unless head is bleeding. Remove false teeth, gum or tobacco from mouth. Keep patient warm. Give stimulants such as aromatic

spirits of ammonia in water, hot coffee, tea or water. Do not give stimulant to an unconscious patient, or to one who may have internal bleeding.

IMPORTANT DON'TS

- Don't** attempt to give anything by mouth to an unconscious person.
- Don't** use anything from a container that is unlabeled or on which the label is obscured.
- Don't** give a cathartic or laxative in any case of severe or persistent abdominal pain.

- Don't** take medicine from a container in the dark.
- Don't** keep poisonous drugs in the medicine cabinet or near other medicines. **Do** keep lids closed with adhesive tape or with pins in corks as warning signals!
- Don't** keep poisons within reach of children.
