MORE THAN 50 YEARS OF SERVICE TO AMERICAN BUSINESS

In 1932 a young lawyer fresh from Marquette University decided to publish a book. This was not an ordinary book but a list of people, their families, occupations and other vital information - a city directory. 1932 was hardly the time to begin a new business but people and businesses needed this important information then just as they do now. Ken Erion started Johnson Publishing Company that year and guided its growth on sound business principles and a belief in a quality product designed to service his customers. Now fifty years later, the Johnson Publishing Company and its affiliates are doing just what Ken Erion wanted to do in 1932.

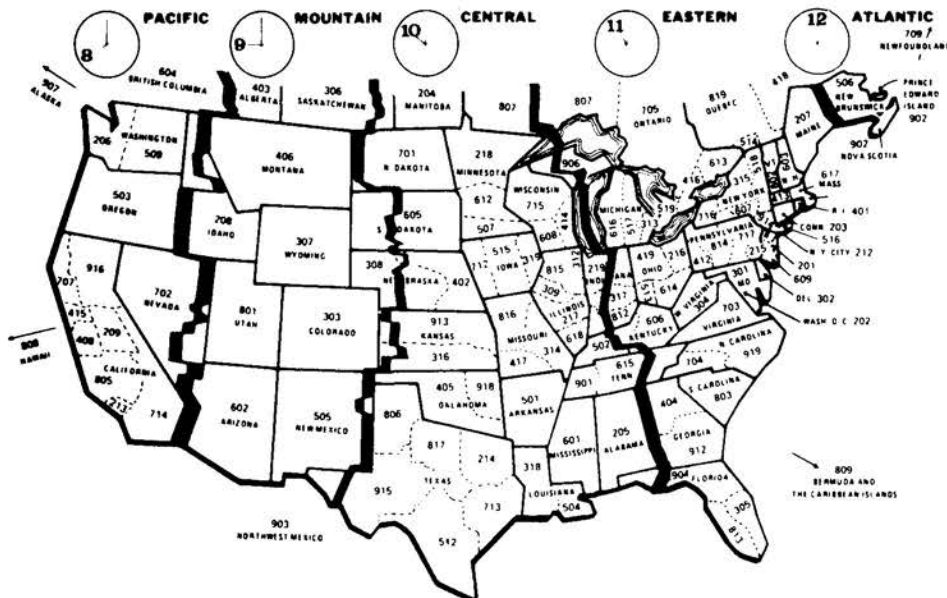

From one small city directory in Wisconsin, the Johnson Publishing Company has grown to serve over 2000 communities with a quality directory product.

New products, enhancements of service and an ever striving commitment to excellence and timely information will continue to place the Johnson Publishing Company in a leadership role during the next fifty years.

UNITED STATES AREA CODE MAP

The JOHNSON PUBLISHING COMPANY, INC., is pleased to present the 1983 edition of the Albany, Oregon City Directory.

It has always been our policy to provide accurate and comprehensive directory service to those communities that desire the "finest". We realize however that some errors and omissions are inevitable and earnestly request that these be brought to our attention. These errors and omissions will be corrected in the next edition of the directory. It is only through the interest of the subscribers and users of the directory that each new edition can surpass the last.

In the public interest the use of this directory for any other purpose than as a reference volume or reproduction of any part of this directory is expressly prohibited without written permission from the publisher.

We are proud of our membership in the association of North American Directory Publishers. The members of this association are constantly striving to improve the products offered to the communities they serve. It is through the association's attitude of mutual sharing that many of the industries' advancements have been made.

Albany & Linn County...Hub of the Willamette Valley

Albany, the seat of fertile and lovely Linn County, is the "Hub of the Willamette Valley". The first white settlers came to Albany in 1846. Two years later, Walter and Thomas Monteith named the city after their former home in New York.

Today Albany is a thriving valley town, more eager than many communities to welcome new, clean industry.

Albany is in the center of Oregon's Willamette Valley, at the confluence of the Willamette and Calapooia Rivers. It is at the intersection of Interstate 5 and U.S. Highway 20. Portland is 70 miles north and Eugene is 40 miles to the south.

The community's present economy relies heavily on three industries: rare metals, food products, lumber and wood products. The production of rare metals such as zirconium, molybdenum, columbium and titanium, has been important to the Albany area ever since the Bureau of Mines established a research facility here in 1943. Teledyne Wah Chang employs more than 1,500 people in the area with an annual payroll exceeding \$50 million. Other leading contributors to the economy are Rem Metals Corporation, Oregon Metallurgical Corporation and Northwest Industries, Inc.

Albany leads other Linn County cities in employment in food and related products, providing 95 percent of the county employment in food processing. However, only five percent of Albany's total employment is in this sector. Oregon Freeze Dry Foods, Inc. is the largest multi-purpose freeze drying plant in the United States. Smoke-Craft is the world's largest producer of beef jerky and the Stokely-Camp Albany plant processes frozen strawberries, green beans, corn and squash.

Seven percent of Albany's employment is in the wood products industry. Georgia-Pacific and Boise Cascade have area mills and plants, as do Willamette Industries, Southwest Forest Industries and the Simpson Timber Company. Golden West Homes produces large double-wide mobile homes under various brand names and R. Veal & Son is the west's oldest furniture factory.

The American Can Company in nearby Halsey, Hewlett-Packard in Corvallis and Mt. Jefferson Woolens in Jefferson also contribute significantly to Albany's economy.

Almost 20 percent of the employment in Albany is in government, half of which is in education. Linn County is the largest grass seed producing county in Oregon and the Willamette Valley is called "The Grass Seed Capital of the World".

In addition to trying to attract new industry to the community, Albany folks are active, participating in parades and festivals year-round. Albany boasts the largest Veterans' Day Celebration in the United States and it is noted for its World Championship Timber Carnival, attended annually by more than 150,000 people and for its Spring Arts Festival, that attracts more than 100,000 people each year.

Albany also has many fine old historical homes demonstrating several types of Victorian architecture, including the late Gothic Revival style, with the stone imported by Italian masons; the simplicity of Colonial Revival; the Queen Anne style, with its variety of texture and form; and the French Empire II style with mansard roof and dormer windows. A guided tour of 29 of these fine old homes is available through the Albany Area Chamber of Commerce.

It's an admirable goal to shoot for in publishing City directories...

But - with the thousands of subscribers to be listed, changed addresses and new numbers, we hope you understand how an error could occur.

Your name, address and telephone number in this directory likely are correct. But, if by any chance they are not, you'll do us a favor by telephoning or writing our business office.

We'll correct our records promptly so it will appear the way it should in the next issue.

Lack of advertising . . . beneficial to some!

When Mark Twain was a young man, he was editor and publisher of a growing newspaper in a small Missouri town. One day he received a letter from one of his subscribers. The subscriber said that he had found a spider in that morning's edition of his paper. He wanted to know if this was an omen of good luck, or of bad luck. Mark Twain, a hustling space salesman as well as an editor, wrote to his customer:

Dear Sir:

Finding the spider in your newspaper yesterday morning was neither good luck or bad luck for you. The spider was merely looking over our paper to see which of the town's merchants is not advertising. He will then go to that store, spin his web across the door, and lead a life of undisturbed peace ever afterward.

WHAT'S IN A PHONE NUMBER?

ABOUT THE FIRM:

Who called me? When your call back message gives a telephone number only—or includes a common surname such as Jones, Smith, Brown, etc.—this Numerical Telephone Locator will assist in determining correct firm name. Make use of both Alphabetical and Street Guide information to establish names of officers, owners or partners, products and services, and correct address. Properly identify firm and caller and have needed records, file or correspondence on hand before returning call.

ABOUT THE INDIVIDUAL:
