✓ *Albany, Oregon*

Albany, the seat of fertile and lovely Linn County, is the "Hub of the Willamette Valley." The first white settlers came to Albany in 1846. Two years later, Walter and Thomas Monteith named the city after their former home in New York.

Today Albany is a thriving valley town, more eager than many communities to welcome new, clean industry.

Albany is in the center of Oregon's Willamette Valley, at the confluence of the Willamette and Calapooia Rivers. It is at the intersection of interstate 5 and U.S. Highway 20. Portland is 70 miles north and Eugene is 40 miles to the south.

The community's present economy relies heavily on three industries: rare metals, food products, lumber and wood products. The production of rare metals such as zirconium, molybdenum, columbium and titanium, has been important to the Albany area ever since the Bureau of Mines established a research facility here in 1943. Teledyne Wah Chang employs more than 1,500 people in the area with an annual payroll exceeding \$50 million. Other leading contributors to the economy are Rem Metals Corporation, Oregon Metallurgical Corporation and Northwest Industries, Inc.

Profile continued

Albany leads other Linn County cities in employment in food and related products, providing 95 percent of the county employment in food processing. However, only five percent of Albany's total employment is in this sector. Oregon Freeze Dry Foods, Inc. is the largest multi-purpose freeze drying plant in the United States. Smoke-Craft is the world's largest producer of beef jerky and the Stokely-Camp Albany plant processes frozen strawberries, green beans, corn and squash.

A growing center of the nations metals industry, Albany is home for U.S. Bureau of Mines R & D Laboratories. In addition, metals firms such as Teledyne, Oregon Metallurgical, Ti-Line, Albany Titanium, among others, add to the local economy. Wood products continues as an employment base for the area with such firms as Willamette Industries and Southwest Forest industries.

Additional contributors to the Albany economy are James River/Dixie Northern Company in Halsey, Hewlett-Packard in Corvallis and Mt. Jefferson Woolens in Jefferson.

Called "The Grass Seed Capitol of the World," Linn County in the Willamette Valley, serves as a center for grass seed production. In addition, sheep, cattle, food processing and dairy production complete a strong agricultural community. Additional employment, approximately 25 per cent, is in government, half of which is in education.

An active community, Albany was named a 1984-85 designee for the national "All-American City" award. Albany boasts the largest national Veterans Day celebration, is home for the World Championship Timber Carnival, attracting more than 100,000 people annually, the Spring Arts Festival and Summer Fling/Jazz Festival.

Albany also has many fine old historical homes demonstrating several types of Victorian

architecture, including the late Gothic Revival style, with the stone imported by Italian masons; the simplicity of Colonial Revival; the Queen Anne style, with its variety of texture and form; and the French Empire II style with mansard roof and dormer windows. A guided tour of some of these fine old homes is available through the Albany Area Chamber of Commerce.

The JOHNSON PUBLISHING COMPANY, INC. is pleased to present the 1986 edition of the Albany, Oregon City Directory. It has always been our policy to provide accurate and comprehensive directory service to those communities that desire the "finest". We realize however that some errors and omissions are inevitable and earnestly request that these be brought to our attention by calling (303) 667-0652. These errors and omissions will be corrected in the next edition of the directory. It is only through the interest of the subscribers and users of the directory that each new edition can surpass the last.

In the public interest the use of this directory for any other purpose than as a reference volume or reproduction of any part of this directory is expressly prohibited without written permission from the publisher. In 1932, a young lawyer fresh from Marquette University decided to publish a book. This was not an ordinary book, but a list of people, their families, occupations and other vital information — a city directory. 1932 was hardly the time to begin, but people and businesses needed this important information then, just as they do now. Ken Erion started Johnson Publishing Company that year, and guided its growth on

sound business principles and belief in a quality product designed to service his customers. Now, more than fifty years later, Johnson Publishing Company and its affiliates are still doing what Ken Erion initiated in 1932. From one small city directory in Wisconsin, Johnson Publishing has grown to serve over 2000 communities across the United States with quality, accurate directories. New products, enhancements of service and our rigorous commitment to place Johnson Publishing Company in a leadership role.

ACCURACY

It's an admirable goal to shoot for in publishing City directories...

But - with the thousands of subscribers to be listed, changed addresses and new numbers, we hope you understand how an error could occur.

Your name, address and telephone number in this directory likely are correct. But, if by any chance they are not, you'll do us a favor by telephoning or writing our business office.

We'll correct our records promptly so it will appear the way it should in the next issue.

TYPICAL QUESTIONS

Your City Directory Will Answer

ABOUT AN INDIVIDUAL...

How does he spell his name?
What is his middle initial?
Is he married? What is his wife's name?
Where does he live? Does he own his home or rent? Has he a telephone?
Who are his neighbors?
What does he do for a living? Where does he work?
Is he the "head of the house" or a resident?
Does he own a business? Is he a member or officer?
Who else is in the same business or profession?

ABOUT YOUR CITY...

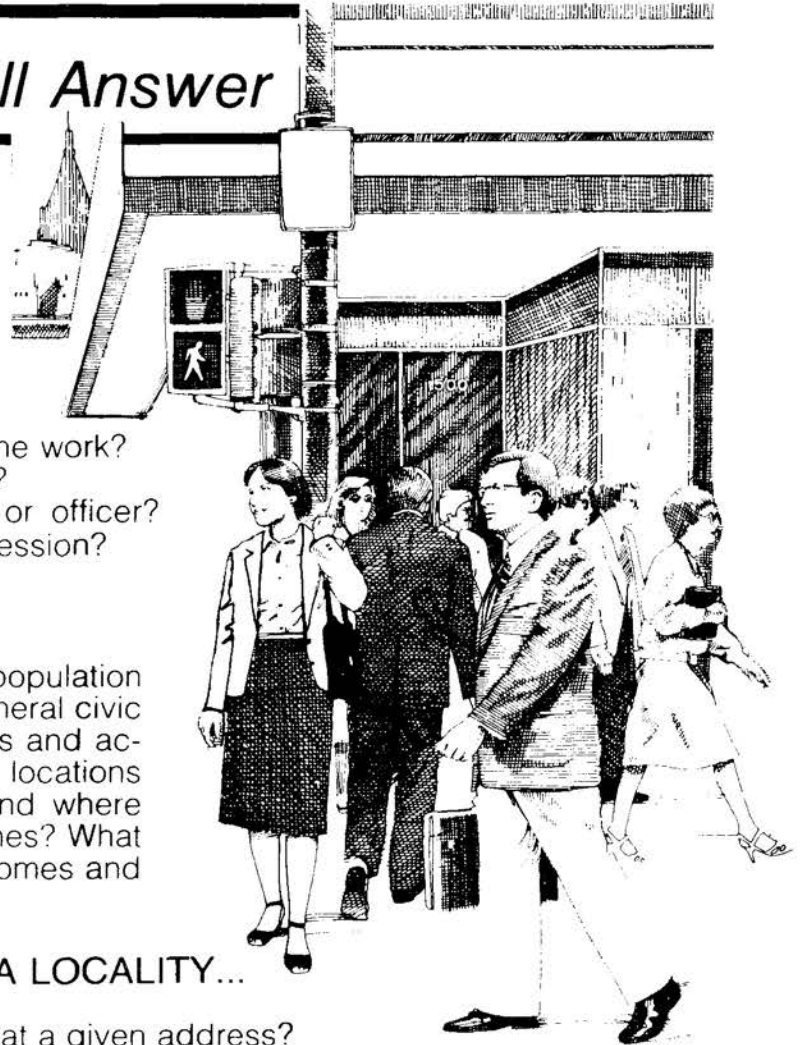

What is the city's history? What are the latest population figures? What is the latest statistical and general civic information? What are the leading industries and activities of the city? What are the names and locations of the schools? What are the churches and where located? Who are the pastors of the churches? What are the locations of the hospitals, nursing homes and other health facilities?

ABOUT A LOCALITY...

Who lives at a given address?
Is there a telephone at the address or nearby?
What is the character of the neighborhood? Is it a "home-owners" section? What is the nearest main intersection?
What is the nearest store, church, school, garage, shopping center, parking lot, etc.?
Where are the municipal and office buildings?
If it is a business location, what business?
If an office building, what firms or professional people are in what rooms?

ABOUT A BUSINESS CONCERN...

What is the nature of the business? What is the correct name and address? Is it a Proprietorship, Partnership or Corporation? Who are the partners, owners, or officers?

A Moral in the Story.

Hank woke up in his advertised bed, slipped into his advertised slippers, and strolled across his advertised carpet. After showering in his advertised shower, he dressed in his advertised clothes, ate an advertised breakfast, petted his advertised dog, and drove away in his advertised car. At work, he sat at his advertised desk, turned on his advertised lamp, and adjusted his advertised watch.

Straightening his advertised tie, he lamented over the fact that sales were down, he had no customers, and things in general were poor. After sipping some advertised coffee, he resolved to take his unadvertised business and advertise it for sale.

So remember, it does pay to advertise.
