

Agenda Linn-Benton Loop Board

Date: Tuesday, November 28, 2017
Time: 3:00 – 5:00 pm
Location: OCWCOG Upstairs Conference Room, 1400 Queen Ave, SE Albany OR
Phone: 541-497-7311, Code 841

1. **Call to Order** Hal Brauner, Chair
2. **Agenda Review** Chair
3. **Public Comment** Chair
4. **Minutes of August 29, 2017 Meeting (Attachment A)** Chair
Action Requested: Approval of August 29, 2017 Meeting Minutes
5. **Loop Scope Service Analysis Update (Attachment B)** Lee Lazaro
Action Requested: Informational

Loop TAC Chair, Lee Lazaro will provide a Draft Loop Service Analysis Scope of Work.
6. **Memorandum of Agreement (MOA) (Attachment C)** Phil Warnock
Action Requested: Review and Approval of Memorandum of Agreement

Staff will provide a draft MOA for review and consideration of approval. Per the Intergovernmental Agreement establishing the governance of the Linn-Benton Loop transit service; "the Board and the City of Albany need to develop a memorandum of agreement sufficient to formalize agreements between the Parties, the Board, Albany, or member entities of the MPOs related to funding, operations, and ongoing expectations for continuing the Loop service."
7. **Budget and Ridership Reports (Attachment D1 & D2)** Chris Bailey
Action Requested: Informational

Chris Bailey, Albany City Transit Staff will review the Linn-Benton Loop Budget for FY2017-18 and Ridership Reports for FY 2016-17.
8. **Next Meeting and Future Agenda Items** Chair
Action Requested: Discussion only
9. **Other Business** Chair
10. **Adjourn** Chair

Next meeting date, Tuesday, February 26, 2018

Agenda continued on next page

**LINN-BENTON LOOP BOARD
DRAFT MEETING MINUTES**

Tuesday, August 29, 2017

3:00 – 5:00 pm

Oregon Cascades West Council of Governments
Upstairs Conference Room / 1400 Queen Ave. SE, Albany

Board Members and Ex-Officio: Roger Nyquist, Hal Brauner, and Bruce Clemetson

Staff Members: Barry Hoffman, Ali Bonakdar, Phil Warnock, and Emma Chavez

Guests Present: Arla Miller, Deborah Ensor, and Lee Lazaro

TOPIC	DISCUSSION	DECISION / CONCLUSION
1. Call to Order and Introductions		The meeting was called to order at 3:03 pm by the Chair, Hal Bruner. Introductions were conducted.
2. Agenda Review	Chair Brauner asked if there were any additions or corrections to the agenda.	There were no changes to the agenda.
3. Public Comment		There were no public comments.
4. Minutes of May 30, 2017 meeting		Consensus by the Loop Board to approve the May 30, 2017 meeting minutes as written.
5. Loop Scope Service Analysis Update	Phil Warnock reported that the Loop TAC has had conversations of what changes to the Loop Scope Service Analysis may look like with the passing of HB 2017. He noted that Lee and Mark put together a memo that was emailed out to the Board and TAC.	Consensus from the Loop Board for staff to develop a Scope of

	<p>Lee Lazaro went on to review the memo. Lazaro noted that the main topic of conversation at the TAC meetings has been the Scope Service Analysis. Lazaro stated that for many years the Linn-Benton Loop has discussed the need to assess structural options for the delivery of optimal regional public transit connecting services; including joint applications from Linn and Benton County which, unfortunately not funded.</p> <p>Lazaro stated that with AAMPO’s budgeted \$28 thousand in FY16-17 UPWP for a Service Analysis Scope of Work (SOW), the TAC reviewed the SOW and discussed local TDP developments. With the passing of HB 2017 and an increase in public transit programs, the TAC saw an opportunity for the SOW to take on a new and higher scale direction than originally indented with additional funds provided.</p> <p>Lee went on to review the TAC’s August 8th discussion and recommendation per the memo distributed:</p> <p>Noting very clearly that the rules/regulations of HB 2017 have not yet been developed; the HB 2017-required advisory committee has not yet been developed, and the rules for the advisory committee have not been approved; and there has not yet been a preliminary discussion with any policy boards for discussion purposes, the TAC made some general “working assumptions” (naturally, subject to later adjustment by the Board and/or the political processes set forth in HB2017):</p> <ol style="list-style-type: none"> 1. A conceptual doubling of current Linn-Benton Loop service is feasible in the coming years, with additional service particularly focused on lower income/employment-related service expansion 	<p>Work based on the TAC’s recommendation.</p> <p>Chair Brauner will take the funding discussion to the CAMPO Policy Board and along with staff will take to Loop Partners.</p> <p>Staff was requested to verify if \$56 thousand would be sufficient funds to accomplish the requested study.</p> <p>Staff was requested to look for grants through ODOT that could be applied for.</p>
--	--	--

	<p>(consistent with Legislative Assembly discussions and HB2017 provisions);</p> <p>2. The doubling of service could potentially be funded by equal HB 2017 allocations from Linn County and Benton County, in the possible range of approximately \$300,000 annually from each county. Consistent with Legislative Assembly discussions, existing allocations from AAMPO, CAMPO, OSU and LBCC would need to continue (the Legislative Assembly expects an expansion of public transit service; and does not expect HB 2017 funds to “fill behind” current resources).</p> <p>3. To provide policy makers with information to support this potential large increase in funding (as well as develop a proposal for review by ODOT/OTC) the Linn-Benton Loop service analysis proposal should be revisited. The existing Linn-Benton Loop routes/schedules were developed more than a decade ago and no longer provide the most efficient delivery of transit service, let alone the efficient delivery of a dramatically increased service. Simply expanding on “more of the same” is not a solid basis for our service analysis.</p> <p>4. A “mini-transit development plan” (similar to the recently developed TDP in Lebanon and a smaller scale than the Albany TDP currently nearing completion), which includes specific recommendations regarding routes and schedules is what is needed. This is a technical report that requires specific skill sets including route/scheduling planning. The estimated cost is \$50,000-60,000 (less than the Lebanon plan and more than the Albany plan). The Albany and Lebanon plans were developed by consultants and we believe it would be appropriate for this task as well.</p>	
--	--	--

	<p><u>TAC Recommendation:</u> The TAC voted on a motion, and agreed to forward this information and recommendation to the Linn-Benton Loop Board. If the Board supports the development of a small-scale transit development study for the Loop, the TAC recommends that the Board request the AAMPO Board and the CAMPO Board to consider funding the plan on an equal basis, in the amount of \$28,000 each.</p> <p>Ali Bonakdar reminded members that at its last meeting, the Board had requested looking into a reliable funding source for the Linn-Benton Loop. He stated that the Board needs to set priorities and decide if it will work on the SOW or put its efforts into searching for a reliable funding source. Additionally, he noted that CAMPO received Planning 5303 funds and 5307 funds. The Planning funds have been cut, as now the larger MPO's are receiving larger amounts and smaller MPO's a lesser amount of funds. This means, CAMPO is having to dip into its carryover funds. Meaning, CAMPO will be in a tight position in the near future. However, Bonakdar expressed that the SOW is important and it is ideal to look into how to fund it, including CAMPO's share. He noted the request would need to be taken to the CAMPO Policy Board.</p> <p>Chair Brauner noted that if the request is to position the Loop to be prepared for anticipated funds, it would be appropriate for the Loop Board to support the study.</p> <p>Commissioner Roger Nyquist requested a dollar amount projection of what the transit funds with HB 2017 will be. He stated that it is important to do things right the first time and that if the</p>	
--	--	--

	group felt the study would be appropriate, Linn County would be willing to support it financially.	
6. Transit District Discussion Follow Up	Warnock noted that this would be addressed with the development of a SOW for the concept of the Transit Development Plan. Members agreed.	This will be addressed through the TDP of the Service Analysis Study.
7. Memorandum of Agreement (MOA)	<p>Staff has begun pulling information for the MOA and is hoping to have it finalized by the Fall. Staff is looking for guidance from the Board on whether the MOA needs to include all the partners on a single MOA signed by all participants, or does there need to be single MOA's between each party and the Loop Board. There is a lack of clarity due to the way the original IGA was written.</p> <p>Members discussed the MOA. It was unclear as to why an MOA was needed if an IGA was in place and through that IGA the City of Albany had been given authority to continue to conduct operations of the Loop. Barry Hoffman noted that it had been questioned whether the City continued to bill OSU or if the Board would now be billing.</p> <p>Chair Brauner clarified that at the beginning of the Loop Board formation it had been stated that the operations would continue as they had in the past. However, it is now time to discuss how to continue moving forward and that the MOA should address those questions. Chair Brauner went on to suggest that there be individual MOA's between each participant. He suggested that funding, data flow (between entities), and expectations of communications be included in the MOA's.</p>	Staff to develop MOA's between each participant and the Board. MOA's should include funding, data flow, and expectations of communications.
8. Budget and Ridership Reports	Hoffman reviewed the Budget and Ridership reports. He noted enrollment and gas prices have effected ridership. However, the	

	year ended well. In July, the first month of the new fiscal year (an off month) there was a higher ridership than the prior year.	
9. Webpage Update	Emma Chavez advised that the Loop Website had been activated under the City of Albany and the old webpage under COG will be removed. All agenda's and minutes for the Board and TAC will be posted on the new site. Social media information may be found at the bottom of the webpage. A link to the new site will be emailed out to members.	
10. Next Meeting and Future Agenda Items	The Chair advised that the next meeting date for the Board is Tuesday, November 28 th . If the Board needs to meet prior to November, a special meeting may be called to order. Staff advised that information on HB 2017 Rulemaking may be made available to members via email as soon as the information is made available.	
11. Other Business	There was no other business.	
12. Adjourn	Meeting adjourned at 4:09 pm.	

DRAFT

Oregon Cascades West Council of Governments (OCWCOG)
Corvallis Area MPO and Albany Area MPO

Request for Proposals Linn-Benton Loop Service Development Plan

Proposals will be accepted until Day/Date/Time

Proposals must be delivered to Oregon Cascades West Council of Governments
Attention: _____ 1400 Queen Avenue SE #201, Albany Oregon
97322.

Proposals may be forwarded by email to:

(Name) _____,

(Title) _____

Oregon Cascades West Council of Governments
Community and Economic Development
1400 SE Queen Ave, Suite 205
Albany OR, 97322
541-924-XXXX Direct 541-967-4651 fax
(email) | www.ocwcoq.org

or by U.S. Mail or hand delivered to OCWCOG, attention
_____, at 1400 Queen Avenue SE, Suite 201 Albany
Oregon 97322 as long as they are received by OCWCOG before the deadline.

(Note: We would recommend the contact be Emma Chavez, as the
administrative support person for the Loop Board and TAC, but that would be the
COG's decision.)

Oregon Cascades West Council of Governments, in accordance with the
provisions of Title VI of the Civil Rights Act of 1964 and subsequent regulations,
hereby notifies all interested parties that it will affirmatively ensure that all
contractors will be afforded full and fair opportunity to submit bids in response to
this invitation and will not be discriminated against on the grounds of race, color
or national origin.

Background

The Linn-Benton Loop has provided transit service to residents of Benton County
and Linn County for more than three decades. The City of Albany has provided
the transit service and previously administered federal, state and local grants
under the general guidance of a Linn-Benton Loop Commission. In 2016 a new
Governing Board was established for the Linn-Benton Loop. Governing Board

members reflect the six primary funding partners for the Loop service, as noted below. The Corvallis Area MPO (CAMPO) and the Albany Area MPO (AAMPO) staff the Governing Board and administer the Linn-Benton Loop's transit service; with the City of Albany serving as the operations contractor for the transit service. The Governing Board established a Technical Advisory Committee to advise the Governing Board and staff regarding operations and performance of the Linn-Benton Loop transit service.

The Linn-Benton Loop operates six days a week with service between Corvallis and Albany. The current route and schedule was essentially developed more than a decade ago. In 2013 an "Express Service" was developed and provides service five days a week, during school terms, between Corvallis and Linn-Benton Community College in Albany. A very important element of the "Express Service" is the connection with East Linn County, served by the Linn Shuttle with a connection to the Linn-Benton Loop at Linn-Benton Community College.

The 2016-2017 ridership was 110,000 including approximately 40,000 Oregon State University student/staff/faculty rides and 29,000 Linn-Benton Community College student/staff/faculty rides. The 2015-2016 ridership was 112,000. The ridership between 2011-2012 and 2014-2015 ranged between 118,000 and 130,000.

Operational funding is provided through the Linn-Benton Loop partner agencies, and consists primarily of Federal Section 5307 funds (allocated by the Corvallis Area MPO and the Albany Area MPO); Oregon State University funds; Linn-Benton Community College funds; state transit funds allocated by Benton County and Linn County; Federal Section 5310 funds; and ridership fares. Capital funding has, in the past decade, included Federal Section 5339 funds and federal stimulus (ARRA) funds, with local match funds provided by the Linn-Benton Loop partners.

With the approval of Oregon HB 2017 (State Transportation Improvement Fund) the operational funding for the Linn-Benton Loop could, conceptually, double in the near future, as STIF revenues begin to accrue beginning in 2018-2019.

The Linn-Benton Loop Governing Board requested the Corvallis MPO, the Albany Area MPO and the Linn-Benton Loop Technical Advisory Committee to review service needs and potential opportunities to increase transit service to meet these needs. Although this service analysis must include Oregon State University and Linn-Benton Community College, a primary focus will be the unmet needs and potential service opportunities of the general public; with an emphasis on residents with low income, consistent with HB 2017.

Objective

Oregon Cascades West Council of Governments (CAMPO/AAMPO) invites proposals from contractors to study ridership needs and opportunities in Corvallis and Albany that could be addressed by increased Linn-Benton Loop service;

review current service schedule strengths and deficiencies; and develop a recommended transit service delivery plan for the Linn-Benton Loop.

The desired product is a practical, short-term operations roadmap focused on routes and scheduling, at a sufficiently detailed level to be useful for project plan requirements envisioned to be required under HB 2017 rulemaking. It is envisioned that the road map will be used for up to five years; with a subsequent update developed which will include a comprehensive assessment of the delivery of the improved transit services by the Linn-Benton Loop and other transit programs supported with HB 2017 funds.

Summary

It is important to note the long list of transportation plans that have either been completed in the past few years or are currently being developed. These plans include: Update of Corvallis Area MPO Regional Transportation Plan; (Initial) Albany Area MPO Regional Transportation Plan; Corvallis Transportation System Plan; Benton County Transportation System Plan; Albany Transportation System Plan; Linn County Transportation System Plan; Benton County Coordinated Human Services-Public Transportation Plan; Linn County Coordinated Human Services-Public Transportation Plan; and Albany Transit Development Plan.

It is anticipated these documents will provide a substantial foundation for the Linn-Benton Loop Service Plan. The primary need is to develop specific route/schedule recommendations to address the public transit needs of the general public between Corvallis and Albany; while continuing to address the public transit needs of Oregon State and Linn-Benton Community College students and staff.

Longer-term planning and policy goals for the Linn-Benton Loop system, such as might be included in a transit development plan, are not within the scope of this project. If it appears necessary in the future to develop such a transit development plan, this may be addressed through a separate RFP at a future time.

Project Tasks

Task 1: Coordination with OCWCOG CAMPO/AAMPO staff (“COG”) and the Linn-Benton Loop Technical Advisory Committee (“TAC”) to collaborate on and to guide tasks

- Contractor will work with COG staff and the TAC to refine the work plan and develop a legal agreement.
- During the active phases of the project contractor will check-in with COG staff 2-5 times a month to discuss and collaborate on tasks. This may be in person, or by phone or email.

- At least once per month, per a schedule to be mutually determined, contractor will meet or teleconference with COG staff and members of a TAC workgroup to provide a project update, identify and resolve issues, and seek clarification and direction on project-related matters. A brief written agenda and simple action/decision minutes will be provided.
- Work with COG staff to obtain and review all related public transit plans/demographic information/transit ridership studies/other materials.
- Work with COG and the TAC to efficiently complete all tasks.

Task 2: Existing Conditions Memo

- Describe the existing public transit programs in Corvallis and Albany, which have or potentially offer connections to the Linn-Benton Loop. This section should be brief and focus on connectivity aspects.
- Identify those areas or sections of Linn and Benton Counties which are presently not served or are currently under-served by public transit and could potentially be served by an expansion of Linn-Benton Loop service or by increased connections of other transit services within the Linn-Benton Loop area. Areas of residents with low income and/or areas where transportation is a barrier to employment must specifically be identified.
- Review and describe recent on-board surveys for the Linn-Benton Loop, Linn Shuttle, Corvallis Transit System and Albany Transit System. Determine if additional on-board survey information is required.
- If required, and if authorized under contractor's agreement and so directed by COG, work with COG, TAC, and local partners to develop and conduct the survey. **In its response to this RFP the Contractor should provide a separate estimate of the cost of an on-board survey.**

Task 3: Analysis of Transit Needs

- A key component of the Linn-Benton Loop Service Plan is the transit needs assessment of potential riders. The Linn-Benton Governing Board, and the Benton County Board of Commissioners and Linn County Board of Commissioners, which will allocate HB 2017 funds, need to better understand the needs of residents within the Linn-Benton Loop potential service area who currently do not use public transit, and if/how improved transit service could address their transportation needs. (This includes the potential area served by better connections between local transit programs and the Linn-Benton Loop.)

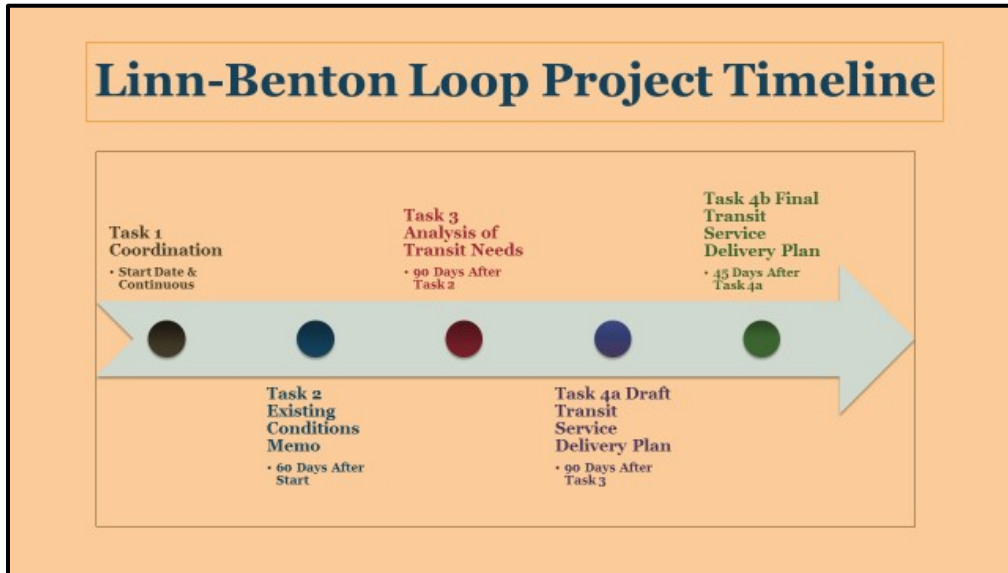

- In responding to this RFP, Contractor should generally describe how it will use existing demographic data, data from other current transit plans, college and university class schedules, community outreach efforts, and other means to develop and assess information about transit needs for the general public. The needs of low income residents, including employment needs, is particularly important in addressing the requirements of HB 2017.
- Other than the review of published class time schedules and staff work schedules for transit scheduling purposes, it is anticipated that a wider outreach to OSU and LBCC students/staff/faculty will not be the primary responsibility of the contractor. The two colleges may decide to survey their students/staff/faculty. If so, the contractor will need to work with the two colleges, provide limited consultation as requested on data needs and survey design, review the information collected by the two colleges, and incorporate the findings into the Linn-Benton Loop Service Plan.

Task 4: Transit Service Delivery Plan

- The development of a transit service delivery plan is the most important element of the Linn-Benton Loop Service Plan. The existing route/schedule (other than the “Express Service”) was developed more than a decade ago and does not well serve the general public, and may not adequately address the scheduling needs of the two colleges.
- The Linn-Benton Loop Governing Board wants a fresh look to review Linn-Benton Loop service options which (1) continue to serve the needs of OSU and LBCC students/staff/faculty; and (2) provide realistic, cost-effective and expanded transit options for the general public with an emphasis on low income residents. In doing so, it is important to retain the character of the Loop as an FTA-designated commuter bus service.
- Contractor will develop service options which include routes, stop locations, route-length travel times, days of service, hours of operation, frequency of service, and vehicles required. It is very important to develop the service options in coordination with the existing routes/schedules of the Linn Shuttle, Albany Transit System and Corvallis Transit System. Where applicable, recommendations should be made where minor modifications to these routes/schedules might improve connectivity.
- Contractor will provide cost estimates for transit operations (driver, fuel, maintenance, etc.) and capital vehicle expenses, for the above service options. These should be at a sufficient level of refinement to be used in developing project plan budgets including information needed for HB 2017 requirements. Options should be presented in increments within a total budget range of approximately \$600,000.

Estimated Project Timeline

The estimated project timeline shows elapsed time from the start of project, following execution of an agreement with the selected contractor. Actual dates can be determined in discussion with contractor, COG, and TAC.

Consultant Budget:

The consultant budget for this project is estimated to be \$40,000 - \$50,000.

Guidelines for Content of Proposal:

- Name of and overview of contractor's firm.
- Names(s) and contact information for the contractor.
- Project team members and their qualifications. It is expected that the personnel listed will serve as the team members assigned to this project.
- Statement of firm qualifications including successful completion of similar tasks, with particular emphasis on the development of transit service routes/schedules. Please include names and contact information for at least three professional references for whom similar work has been performed.
- Since this project utilizes Federal funds, the Contractor must follow all applicable Federal laws and regulations when performing the work. These provisions will be a part of the eventual legal agreement.

DRAFT

**Memorandum of Agreement (MOA)
Between
Linn-Benton Loop Policy Board
And
CITY OF ALBANY**

This MOA is made and entered into execution by and between the Linn-Benton Loop Board, hereinafter known as the Board, and the City of Albany, hereinafter known as Albany.

SECTION 1. SCOPE OF SERVICES

The purpose of this MOA is to formalize agreements related to funding, operations, and ongoing expectations for continuing the Loop service between the Board and Albany.

SECTION 2. Linn-Benton Loop Board

- A. Authorize Albany to accept Federal Section 5310 funds related to the operation of the Loop.
- B. Review, comment, and offer recommendations, or suggestions, on the annual budget of the Loop.
- C. Review and set partnership contribution amounts for funding of the Loop and make recommendations to Albany regarding routes and schedules.
- D. Seek, identify, and recommend new funding sources for the Loop.
- E. Review and make recommendations regarding level of service, operation improvements, and performance of the Loop.
- F. Sponsor and administer the development and implementation of plans, programs, projects, and studies for the Loop.

SECTION 3. City of Albany Responsibilities

- A. As the transit provided, accept and manage Federal Section 5310 funds for the operation of the Loop.
- B. Maintain the Loop service according to policy direction provided by the Board.
- C. Responsible for budget, appropriation, day to day operations, and all other actions permitted by law and required to perform the Loop service.
- D. Provide quarterly budget and ridership reports at Loop Board and TAC meetings.

SECTION 4. PROVISIONS

- A. Contract Period: This agreement shall be effective upon signing by both parties and shall terminate on June 30, 2018, unless this agreement is hereafter modified in writing.

- B. Amendments:** Any amendment to this agreement shall be made in writing to the Board at least thirty (30) days before the Board may make a decision.
- C. Termination:** This agreement may be terminated by either party. Suspension in whole or in part of this agreement by either party will require ninety (90) days written notice to the other party.
- D. Discrimination:** The parties shall not discriminate on the basis of race, religion, sex, color, age, source of income, sexual orientation, or national origin in the performance of this contract.
- E. Indemnification:** To the extent permitted by law, each party shall indemnify and hold harmless the other from any suits or damages caused by the negligent actions or omission in connection or association with the performance of this agreement.

IN WITNESS WHEREOF, the parties hereto each herewith subscribe the same in duplicate.
